**LIVE BIRTH**

occurs when a baby develops inside the mother's uterus, nourished through the placenta. After a typical 9-month pregnancy, the baby is born alive, either vaginally or via cesarean section, and begins its life outside the mother's body.

Source: Philippine Statistics Authority (Data on live births are based on registration at the City/Municipal Civil Registrars nationwide, and submitted to the Office of the Civil Registrar General; derived from Certificate of Live Birth-Municipal Form No. 102)
